CAREER OBJECTIVE

Passionate about building fast, accessible, responsive, and production-ready applications within the JavaScript ecosystem. Adept at leveraging AI models and workflows to architect, develop, debug, and refactor code - accelerating engineering cycles and shipping high-quality, performance-optimized digital solutions.

SKILLS

- **Core & Languages:** JavaScript (ES6+), TypeScript, Node.js, Git & GitHub
- **Frameworks & Libraries:** React.js, Next.js, Express.js
- **Databases & Auth:** MongoDB, BetterAuth, JWT (JSON Web Tokens)
- **UI & Styles:** Tailwind CSS, Shadcn, HeroUI, DaisyUI, Responsive Web Design,
- **AI Workflows & IDEs:** Cursor, OpenCode, VS Code, AI-Assisted Project Architecture
- **Deployment & Core Competencies:** Vercel, Problem-Solving, Adaptive Learning, Team Collaboration

PROJECTS

StudioSpace – Creative Studio Listing & Booking Platform: Live Link | Client GitHub | Server GitHub

- Implemented BetterAuth with JWT verification and middleware guards, ensuring authorized, token-scoped CRUD operations to prevent cross-owner data modifications
- Developed a studio reservation system that blocks overlapping schedules and enforces strict business rules to prevent hosts from booking their own spaces
- Implemented secure studio listings and private reservation management

Tech Stack: Next.js, TypeScript, BetterAuth, JWT, Express.js, Node.js, MongoDB, Shadcn, TailwindCSS

EDUCATION

Bachelor of Social Science in Political Science, 3rd year (ongoing) – National University of Bangladesh

EDUCATION

English (Professional - Fast Learner), **Bengali** (Native), **Hindi** (Conversational)
